CYPRUS/COVID-19

The UN Mission in Cyprus (UNFICYP) has stepped up measures to protect peacekeepers, ensuring the continuity of UN operations and preventing the potential spread of COVID-19 in the country.

UNFICYP is making every effort to guarantee that necessary humanitarian deliveries continue to affected people living in the north.

All new peacekeepers will undergo a 14-day period of isolation before starting their duties with the mission and civilian staff have been instructed to telecommute wherever possible.
