

## WEB-BASED PLATFORM CyprusFlightPass

In order to facilitate both travelers and airlines, a web-based platform has been created, through which all persons planning to fly to the Republic of Cyprus must submit beforehand all the required information and documents (such as a health certificate for COVID-19, declarations, etc). The use of the web platform [<https://www.cyprusflightpass.gov.cy>] is **mandatory** for all those intending to visit Cyprus.

In order to render possible their departure from an international airport to fly to the Republic of Cyprus, passengers must first fill out electronically the required documents available on the platform <https://www.cyprusflightpass.gov.cy>

It should be noted that in case of a technical problem or scheduled maintenance of the electronic platform, the passengers should complete by hand the required forms, which are posted on the electronic platform.
