

Release Protocol for confirmed COVID-19 cases treated in non-hospital environment and in self isolation for 14 days¹

GENERAL PRACTITIONERS

Notes:

¹ This algorithm was compiled in collaboration with the Cyprus General Practitioners Association

² Less common symptoms include sore throat/ dry throat/ nasal congestion/ runny nose/ anemia, headaches and gastrointestinal symptoms (vomiting, diarrhoea). Caution is required here as symptoms such as runny nose, sneezing, runny eyes, itching are most likely due to a seasonal allergy.
