

Maximum number of persons at cultural and political events

Following many requests by organized groups and agencies concerning the organizing of cultural and/or political events in outdoor spaces, the Ministry of Health would like to inform the public that **the holding of cultural events** (theatre, music and dance performances, visual exhibitions, etc.) **and of political events** (gatherings of party members or voters, etc.) **in open-air venues such as squares**, is permitted under the mandatory obligation of following the corresponding [guidelines](#) which govern the organising of events in open-air amphitheatres.

It should be stressed that in each case **the maximum number of persons who may attend such events is 350, who must be seated at all times**. It is also clarified that the event organizers should place the seats in accordance with the manner specified in the protocol for open-air amphitheatres, maintaining social distancing in-between the seats, regardless of the available area in square metres.
