

### **Procurement process for the supply of 9 million masks completed**

A quantity of nine million masks is expected to be delivered to Cyprus, in two batches, after the completion of the competition announced by the Ministry of Health, in the context of the efforts to contain the spread of COVID-19. The two batches of masks will arrive in Cyprus in late April and mid-May.

More details on the availability of the nine million masks will be announced in the coming days.
