

Testing for employees returning to work on 8 February is in progress

In continuation of the plan for the screening of employees returning to their workplace in accordance with the strategy for the gradual lifting of restrictions, the screening program of rapid antigen testing carried out for employees who will be reactivated on 8 February is in progress.

In order to render possible the testing of all employees who will be returning to their workplace, **the employees are grouped alphabetically according to their surname**. The testing units will, therefore, serve these employees as follows:

Day/Date	Surname – Greek alphabet	Surname – Latin alphabet
Wednesday, 3 February	Δ – Ι	E – I
Thursday, 4 February	Κ – Λ	J – M
Friday, 5 February	Μ – Ο	N – R
Saturday, 6 February	Π – Σ	S – V
Sunday, 7 February	Τ – Ω	W – Z

Employees are **encouraged to adhere to the above alphabetical grouping** so that the program will be carried out in an organized manner without overcrowding or inconvenience. The employees with a surname Α - Γ (Greek alphabet) and A - D (Latin alphabet) who did not proceed for testing today, are asked to undergo a test in the following days, **since a negative rapid test outcome constitutes a requirement for returning to work**.

The testing program for employees will be carried out **at the same time as the testing program for the general population**. In order to better serve all citizens, testing units for the period **3-7 February increase to 55 and will operate in the whole of Cyprus, with extended operating hours**, as follows:

District	Location of testing units	Operating hours
