Clarifications on the measures that will apply on Green Monday

In view of tomorrow's Green Monday holiday, in relation to the recent decisions of the Council of Ministers (Decree dated 12 March 2021), the following is reminded, which **will be in effect only for 15 March:**

- **Access is allowed** to public gathering places, specifically dams, parks, linear parks, squares, nature trails of the Department of Forests and excursion areas.
- The maximum number of persons gathered in the above areas **is six (6) persons per group, not including minors** (six adults and their children).
- **Access to playgrounds** located within the above areas **is not allowed**.
- For purposes of visiting the above areas, an **SMS message must be sent to 8998, while selecting the option number 6**.
- Access to the above areas **is allowed until 8:30 pm**.
- The curfew begins at **9 pm**.

Aiming at the psychological recovery of all citizens and always keeping in mind the need to protect both individual and public health, citizens are urged to show maximum compliance, in case they intend to move on Green Monday. In any case, the safety and protection of ourselves and others should be the guiding principle, observing all measures of social distancing and individual protection.
