

Maximum number of 10 persons in homes and gatherings

Due to the transmission of COVID-19 within the family and its spreading to the social environment as observed in the process of tracing positive cases, it is reminded that for purposes of social activity and/or sports, **access is allowed in parks and linear parks, beaches, squares, dams, picnic areas, marinas, zoos, and nature trails**. It is clarified that **the maximum number in gatherings is 10 persons per group**, including underage children.

In addition, it is noted that **the maximum number of 10 persons in homes is still in effect, including residents and underage children**.

In order to avoid the creation of virus transmission chains, and to maintain the epidemiological picture at a manageable level, but also to secure greater safety in social activities, citizens are urged **to keep a stable social circle of people as possible and to choose to socialize mainly outdoors**, taking into account the good weather conditions during this period in Cyprus.

In cases of social activities where **there is gathering of individuals unknown to each other**, it is recommended to have **a negative rapid antigen test result with an effect of 72 hours**, within the framework of the SafePass.
