

## Updated schedule for the period 22-25 April vaccination program against COVID-19

Due to the need to accelerate **the vaccination plan against COVID-19** in order to maximize the shielding of the population as soon as possible and also because, based on the data and experience from previous openings of the Vaccination Portal, **on the 2<sup>nd</sup> day of the availability of appointments the response was minimal**, it is announced that **for the age group 49-50, the Portal will remain open today, April 21, until 8 pm, and not until April 22, at 8 pm as was initially announced.**

Therefore, all individuals aged 49 and 50 who wish to be vaccinated are invited to **proceed to the arrangement of their appointment within the day.**

Additionally, the schedule for appointments **from Thursday, April 22, until Sunday, April 25**, has been updated as follows:

<b>Age</b>	<b>Priority Date for the Vaccination Portal</b>
<b>47-48</b>	Thursday, April 22, from 7:30 in the morning to 8 in the evening
<b>45-46</b>	Friday, 23 April, from 7:30 in the morning to 8 in the evening
<b>57-58</b>	Saturday, 24 April, from 7:30 in the morning to 8 in the evening
<b>59-60</b>	Sunday, 25 April, from 7:30 in the morning to 8 in the evening

The vaccinations for the appointments that will be arranged on the above dates will be carried out in Vaccination Centres operating island-wide, with the available licensed vaccines. It is also noted that at a later time, the age groups which had only one opportunity to schedule an appointment will be given another opportunity to do so.

As of April 20, **a total of 219,654 vaccinations have been administered (25 doses per 100 inhabitants), of which 161,389 (18,3%) concern the administration of the 1<sup>st</sup> dose and 58,265 (6,6%) concern the administration of both doses.**
