PERSONS WITHOUT VACCINATION HISTORY, OR WHO HAVE COMPLETED THEIR VACCINATION SCHEME AND THE PERIOD OF 7 MONTHS HAS ELAPSED, OR HOLD A CERTIFICATE OF RECOVERY AND THE 90-DAY PERIOD HAS ELAPSED:	Rapid test: 48 hours or PCR test: 72 hours	Rapid test: 24 hours or PCR test: 48 hours
PERSONS IN POSSESSION OF A VALID VACCINATION OR RECOVERY CERTIFICATE:	No obligation	Rapid test: 72 hours or PCR test: 72 hours

Important clarifications:

- As of 22 April 2022, SafePass is required only at the indoor areas of catering establishments, entertainment establishments, and music and dance venues.
- The use of a protective mask is required to indoor/closed areas only.
- **SafePass** is required for spaces over 100 m².
- Persons who **cannot be vaccinated** due to **medical reasons**, and hold a **medical certificate** issued by the Ministry of Health, the obligation is for a 72-hour Rapid or PCR test.
- **The check of persons with a valid vaccination or recovery certificate in the areas of high risk shall be carried out as follows: a) the vaccination or recovery certificate will be checked through the CovScan Cyprus application and b) then the negative test (Rapid or PCR) will be presented in printed form or in a written text message.**

It is reminded that:

- **Individuals who are positive to the virus are automatically released on the 7th day, without a rapid antigen test, provided that they do not have active symptoms.** The release of persons earlier than 7 days is possible with a **negative PCR test result on the 5th day** since the diagnosis and the cost shall be borne by themselves. Special arrangements apply to closed structures, Senior people's homes and hospitals.
- **Individuals who are close contacts of a confirmed positive case**, who according to the Protocol must be isolated, shall self-isolate for a period of 5 days, provided that they do not have active symptoms. A Rapid test on the 3rd and the 5th day after contact is required.
- Teleworking is recommended at 25% in businesses and organisations of the public and wider public sector, as well as in local authorities.
- Visits to patients in public and private hospitals are allowed upon presentation of a 24-hour rapid antigen test **(1 person per visit)**.
